Heads Up, FYI. Could someone please forward to Attorney Sheehan. I don't have his email address.

I totally disagree with the impression that we have not been working together and do not support a town committee. Been there, done that.

Thanks,

Joan

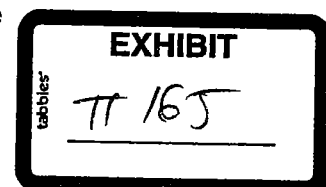

*Finney

Joan- I don't know what we will be hearing tonight about the Feoffees, but it is always a topic that can raise emotions.

In light of that, there will be a suggestion tonight to address that fact that the town boards, up to now, have not been working together with a common set of facts and professional advice re the Feoffees. This reduces the ability of the town to make use of a lot of experience and perspectives in finding a solution to a problem that affects the whole town and relates to the

11/10/2011

responsibilities of the SC BOS and FinCom. It also results in frustration and can lead to a waste of energy fighting among ourselves and potentially working at cross purposes .

The suggestion is to come up with a plan so that all 3 boards can get a comprehensive set of facts, history and current status and a process for coming up with a joint solution. This may be best done with a committee, much like the Space Utilization Committee was expected to operate, with membership from each board. This could act as a clearing house for information and ideas.

Be glad to speak with you about this this afternoon or tonight
